Construction Solutions

ALLPREP FLOORING SPECIALISTS PTY LTD

Awarded One Sydney Harbour Project

AllPrep Flooring Specialists Pty Ltd is proud to have been awarded the major contract for the installation of Floor Preparation Works on the One Sydney Harbour Project managed by Lendlease, a top tier one construction company.

The One Sydney Harbour Project in Barangaroo will represent a new world class residential precinct in the South of Barangaroo, with an overriding vision to deliver a landmark residential precinct for Sydney that will set the benchmark for Australian apartment living.

The R1 Tower will be the tallest residential building in Sydney, finishing at a final height of 247m. The R1 Tower is currently at Level 20. The structure works are progressing well and heading towards the sky.

AllPrep Flooring Specialists Pty Ltd, Managing Director - David Kealy has over 30 years experience in the Self Leveling Underlayment industry and will showcase LATICRETE® SUPERCAP® "Pump Truck" for the very first time in Australia.

"We are very pleased and excited to be partnered with the globally proven LATICRETE® SUPERCAP® System, and construction company Lendlease, on this prestigious project where we will pump up self leveling materials up to 70 floors from street level to deliver a perfectly flat floor faster, safer and greener." ~ David Kealy, Managing Director, AllPrep Flooring Specialists Pty Ltd.
